## PRESIDENT'S MESSAGE

From the desk of Mike Kernen, CISA

As the new ISACA chapter president, I would like to introduce myself. My wife Karrie, and our two children and I have lived in Pewee Valley, KY for the past ten years. I'm currently a Senior IT Auditor at LG&E in Louisville, KY. Previous experience includes various positions in the IT field. I look forward to kicking off the new season and getting to better know the local ISACA members as well as welcoming new ones.

In the upcoming months, the new officers and I will be completing the transition into the 2003-2004 season. Thanks very much to David Gorgas and the other officers that produced a 2002-2003 year that included excellent programs as well as increased chapter membership. We hope to maintain our growth initiative as well as deliver quality speakers and programs to the Louisville chapter this coming year. Please see the last page of the newsletter for a listing of our newly elected officers.

We have a number of events planned for the remainder of the year. As they are communicated, be sure to add them to your calendar. Be sure to check our [website](#) regularly for new chapter information. Also, we encourage you to submit any ideas or wishes you have for particular programs during the next year.

We are constantly looking for new members. Please refer prospects to one of our Board members so we can get them on the mailing list.

Mike Kernen, CISA  
President – KY ISACA Chapter

08.18.2003

TOPIC: Firewall Security

Larry Perdue, CISSP of Boice.Net will be presenting a brief seminar on securing and auditing Firewalls. Mr. Perdue is currently a member of Boice.net's Security practice.

Larry has earned the CISSP certification as well as numerous CISCO certifications. During his career, Larry has had significant experience with performing IT security vulnerability assessments, penetration testing, and firewall assessments. Specific technologies and vendors that Larry has worked with include Cisco products, CheckPoint products, and the ISS suite of applications.
