PRESIDENT'S MESSAGE

From the desk of Mike Kernen, CISA

Thanks to those who attended our August meeting. Larry Perdue of Boice.net gave an excellent talk about the security and audit of firewalls.

We are excited about this month's topic – telecomm auditing tactics. We have lined up a knowledgeable speaker that is both the founder and CEO of BBR Wireless Management.

In addition, we have a great location at the Jefferson Club – which is on the top floor of PNC tower.

We have a number of events planned for the remainder of the year. As they are communicated, be sure to add them to your calendar. Be sure to check our [website](#) regularly for new chapter information. Also, we encourage you to submit any ideas or wishes you have for particular programs during the next year.

We are constantly looking for new members. Please refer prospects to one of our Board members so we can get them on the mailing list.

TOPIC: Telecommunications Auditing Tactics

Jim Carroll has more than 17 years experience in the wireless industry, holding senior sales and operations positions with companies such as PacTel (now Verizon Wireless), BellSouth Cellular (now Cingular Wireless) and TDS (now U.S. Cellular, Ariel Communications and American Paging).

Five years ago, Carroll started BBR Wireless Management with one goal in mind: To help businesses make better decisions on wireless services to improve usability and decrease costs. BBR has helped hundreds of clients save hundreds of thousands of dollars by providing rate optimization and usage management expertise.

Clients include Sears, Corning, Sallie Mae and Transamerica.

He is considered one of the most knowledgeable and unbiased experts on wireless products and services.
