PRESIDENT'S MESSAGE

FROM THE DESK OF MICHAEL VINCENT

Kentuckiana ISACA Chapter members and Guests,

We had a great September meeting at the Jefferson Club. I had the opportunity to present the current state of our chapter and some of the great opportunities that we have in store for us. The presentation, which includes the survey results, is posted on our web page. Thanks to everyone that had an opportunity to attend.

Your KY ISACA President,
Michael Vincent

Ethical Hacking

Speaker: Mitchell Greenfield

Overview:

Did you know there was such a thing as ethical hacking? Come to the ISACA meeting and learn about ethical hacking. In addition you will learn about penetration testing and the differences between ethical hacking and penetration testing. Further, it will cover the tools that are commonly used in both activities and why you want to conduct ethical hacking and penetration testing. Finally, certifications in this area will be covered.

Bio:

Mitchell Greenfield is currently a security consultant at Humana in Enterprise Information Security. He conducts ethical hacking and penetration testing on Humana's environment. Mitch is a Certified Ethical Hacker (CEH) and Certified Security Analyst (ECSA). Mitch holds an MS in Information Systems and a BS in Informatics both from Indiana University. Prior to working for Humana Mitch was employed by PricewaterhouseCoopers.

Next Exam: December 13th 2008

The Certified Information Systems Auditor (CISA) is ISACA's cornerstone certification. The CISA certification has been earned by more than 55,000 professionals since inception and is for the IS audit, control, assurance and/or security professionals who wish to set themselves apart from their peers. Since 1978, the CISA certification has been renowned as the globally recognized achievement for those who control, monitor and assess an organization's information technology and business systems. [Learn More about Certification](#)

Next Exam: December 13th 2008

The Certified Information Security Manager (CISM) certification is a unique management focused certification that has been earned by over 7,000 professionals since its introduction in 2003. Unlike other security certifications, CISM is for the individual who manages, designs, oversees and assesses an enterprise's information security program. CISM defines the core competencies and international performance standards that those who have information security management responsibilities must master. [Learn More about Certification](#)

PayPal is a quick and simple way to pay for monthly ISACA meetings. From the chapter web site ([go to the meeting and seminar schedule page](#)). Click the "pay now" button for the meeting you wish to pay for. If you already have a "PayPal" account, simply verify the amount; enter your log-in and password. If you don't, creating an account is easy!

Once you have completed the transaction, you will be sent an e-mail receipt by PayPal and be returned to the Kentucky ISACA web site. The local chapter also receives an e-mail that tells us you have paid.

All information is exchanged via HTTPS protocol (secure and encrypted) and remains with PayPal.
